

APPLICATION LIST

CHEMICAL PRODUCT	COMMON USES
Ammonium Fluoroborate Crystal, with Anticaking Agent	Metal surface treatment, electroplating, flux for soldering
FluxPax Ammonium Fluoroborate	Soldering flux, brazing operations, metal finishing
Ammonium Fluoroborate Crystal, with Anticaking Agent	Metal surface treatment, electroplating, flux for soldering
Ammonium Fluoroborate Crystal, without Anticaking Agent	Metal surface treatment, electroplating, flux for soldering
Sodium Fluoroborate Granular, with Anticaking Agent	Electroplating, metal finishing, flame retardants
Sodium Fluoroborate Granular, without Anticaking Agent	Electroplating, metal finishing, flame retardants
Potassium Bifluoride Crystal Technical	Glass etching, electropolishing, metal surface treatment
Potassium Bifluoride Crystal Technical, Flowable	Electropolishing, metal surface treatment, nuclear
Sodium Sulfate Granular, ACS Reagent	Detergents, glass manufacturing, textile dyeing
Potassium Tetraborate Tetrahydrate Granular	Welding flux, herbicides, buffer solutions
Potassium Tetraborate Tetrahydrate Powder	Welding flux, herbicides, buffer solutions
Potassium Pentaborate Tetrahydrate Granular	Flame retardants, fertilizers, corrosion inhibitors
Potassium Pentaborate Tetrahydrate Powder	Flame retardants, fertilizers, corrosion inhibitors
Potassium Metaborate, Granular	Herbicides, electroplating, flame retardants
Potassium Metaborate, Powder	Herbicides, electroplating, flame retardants
Fluoroboric Acid	Metal finishing, electroplating, chemical etching
Sodium Nitrite	Meat preservation, corrosion inhibitor, dye manufacturing
Peptone Solution	Metal finishing, electroplating, chemical etching
